Dollars in thousands except average outstanding customer balance

⁽¹⁾ The balance of 60+ days past due as a percentage of total customer portfolio balance as of October 31, 2017 reflects the impact of first time re-ages related to customers within FEMA-designated disaster areas as a result of Hurricane Harvey.

⁽²⁾ The re-aged balance as a percentage of total customer portfolio as of October 31, 2017 includes \$71.8 million in first time re-ages related to customers within FEMA-designated disaster areas as a result of Hurricane Harvey.

⁽³⁾ The quarter ended July 31, 2016 included change in estimate adjustments which negatively impacted interest income and fee yield by \$8.2 million or 220 basis points and negatively impacted bad debt charge-offs (net of recoveries) by \$3.9 million or 110 basis points

⁽⁴⁾ Application data revised to conform calculation of approval status.

⁽⁵⁾ Three month rolling average of gross cash payments as a percentage of gross balances outstanding at the beginning of each month in the period. Fiscal year rate is for the full twelve month period.

⁻ The static loss analysis presents the percentage of balances charged off, based on the fiscal year the credit account was originated and the period the balance was charged off. The percentage computed is calculated by dividing the cumulative amount charged off since origination, net of recoveries, by the original balance of accounts originated during the applicable fiscal year. Period 0 is the year of origination.

⁻ The impact of the change in estimate for future sales tax recoveries was approximately 10 to 20 bps and was reflected in the net static loss rate for the quarterly period related to the three month period ending July 31,2016 (period 10 for FY14, period 6 for FY15 and period 2 for FY16).

⁻ T represents the terminal loss percentage - the point at which that pool of loans has reached its maximum loss rate.

⁻ The origination amount includes sales taxes and other amounts that are not included in retail net sales.

⁻ As a result of our decision to pursue collections of past and future charged-off accounts internally rather than selling charged off accounts to a third-party, recoveries will be received later and interim static loss rates will be higher than historical experience until the terminal static loss rate is reached. This will impact net loss results for periods occurring after October 31, 2014.

Fiscal 2015, 2016, and 2017 Static Loss Data by Quarter Originated As of October 31, 2017

Period of Origination	Originations i	Cumulative Net Charge-off	% of Balance Remaining	Balance Outstanding ⁱ
FY2015				
Q1	\$290.6	15.7%	0.3%	\$0.9
