It sells major home appliances, including refrigerators, freezers, washers, dryers, dishwashers and ranges, and a variety of consumer electronics, including micro-display projection, plasma and LCD flat-panel televisions, camcorders, digital cameras, computers and computer accessories, DVD players (both standard and high definition), video game equipment, portable audio and home theater products. The Company also sells lawn and garden products, furniture and mattresses, and continues to introduce additional product categories for the home to help respond to its customers' product needs and to increase same store sales.

Unlike many of its competitors, the Company provides flexible in-house credit options for its customers. In the last three years, the Company has financed, on average, approximately 58% of retail sales. Customer receivables are financed substantially through an asset-backed securitization facility, from which the Company derives servicing fee income and interest income. The Company transfers receivables, consisting of retail installment contracts and revolving accounts extended to its customers, to a qualifying special purpose entity (QSPE) in exchange for cash and subordinated securities. The QSPE funds its purchases of the receivables through the issuance of medium-term and variable funding notes secured by the receivables and issued to third parties, and subordinated securities to the Company.
